

# Nicklas Nilsson CV

## Work Experience

Current, from Apr 2021

Android Consultant at Mathem  
*Gothenburg, Sweden*

Worked at Mat.se improving the shopping experience of the consumer facing android app and then moved over to Mathem when they acquired Mat.se at the beginning of 2022. At Mathem I led the work of a new android app. It helped drivers being more efficient by easy navigation and delivering of customer orders.

**Keywords: Android, Kotlin, Compose, MVVM/MVI, Jetpack Libraries, Firebase, Analytics Tracking, GitHub**

Apr 2021, from Dec 2019

Software Developer at Volvo Group  
*Gothenburg, Sweden*

Developed new features for apps running in Excavators and Wheel Loaders at Volvo Construction Equipment. Also did some Web and Flutter development.

**Keywords: Android, Java, Kotlin, Typescript, Flutter, Node, Gerrit, Confluence**

Dec 2019, from Sep 2018

App Developer at Meetio  
*Malmö, Sweden*

Developing calendar applications for tablets and big screens mounted in office environments. Integration with microservices running on Docker.

**Keywords: Swift, Java, Dagger2, Kotlin, MVVM, Android architecture components**

Sep 2018, from Jul 2017

Android Consultant at Assa Abloy  
*Landskrona, Sweden*

Worked with a service tool to configure smart door locks for hotels. Implemented a protocol to read and write commands to the lock. Also integrated with a service running on AWS.

**Keywords: Protocols, Java, Dagger2, AWS, MVVM, Android architecture components**

Jul 2017, from Sep 2014

Software Engineer at X Lab Inc
